Following God's Plan

How does following God's plans affect your life? Read how God's plan affected Violet Kinder's family.

My name is Violet Kinder.* I am 11 years old. I am an MK (missionary kid) living in South Asia. Since I was born in Africa and was used to traveling around and living different places, I did not think India would be very different. It is. Africa was home. When my family moved to India three years ago, it was a very unfamiliar place. I like India—I have very good friends here, but sometimes things are difficult. My new friends here do not know Jesus. Many of them worship false gods. They do not want to hear about the Bible or about God's love. I pray for my friends every day. I hope one day my friends will ask Jesus to be their Savior and Lord.
